NATURE NOTES: DEC. 26-JAN. 1
Blue jays, northern cardinals, and other winter birds provide welcome color as they perch on snow covered evergreen boughs. Ring-necked pheasants feed in corn stubble fields and pick up roadside gravel to help with digestion. Icicles grow on sunny, cold days. Below-zero temperatures bring elegant frost designs to the insides of some clear glass windows. The patterns come in swirls and feathers, tree branches, and miniature forests.
