## NATURE NOTES: NOV. 27–DEC. 3, 2023

Evergreens such as pines, spruces, firs, and arborvitae add much interest to the late November and early December landscape. With patience and persistence, black-capped chickadees will learn to take sunflower seeds from human hands. The shipping season is ending on the upper Mississippi from St. Paul into Iowa. In 2021, ice-in dates include Detroit Lake in Becker County on Nov. 28, and Lake of the Woods on Nov. 30.
